

GOVERNOR TAKES ACTION

Asks That Engineers' Examination Order Be Temporarily Suspended.

Columbus, O., April 8.—It was announced that Governor Harmon desired Chief Examiner of Engineers Kennedy to temporarily suspend the order requiring the immediate re-examination of engineers throughout the state who had been given certificates under the law of 1900, which the supreme court declared unconstitutional.

The governor telegraphed Kennedy, who has been in Cleveland, notifying him that he had received a number of complaints against requiring immediate re-examination, and saying that he would be pleased if Chief Kennedy could arrange the matter satisfactorily with the engineers.

It is understood that the governor was moved to take the step not so much because of complaints from engineers as because of protests from manufacturers, particularly members of the Cincinnati chamber of commerce, who objected to their engineers being taken from their plants in large numbers at this time.

ARGUMENTS ENDED

Court Takes Haskell's Appeal Under Advisement.

Tulsa, Okla., April 8.—Arguments were concluded in the motion to quash the indictments against Governor Haskell and five co-defendants on land fraud charges growing out of the requirement of town lots in Muskogee. The motion was taken under advisement by United States District Judge John A. Marshall of Utah. The court's ruling is not expected for several days.

SCANDAL MONGERS GIVEN BIG TREAT

Louisiana Murder Trial Replete With Sensations.

Plaquemine, La., April 8.—The trial of Fabian S. Bouvy for the killing of Professor Fred F. Van Ingen assumed a sensational aspect when the defense sought to prove that Van Ingen's relations with his wife before their marriage were such as to arouse a justifiable resentment in Bouvy, said to have been deeply in love with the girl.

Dr. George Wilbert of Plaquemine declared that Miss Rhorer, who became Mrs. Van Ingen, declared to him that Van Ingen had forcibly taken advantage of her and then asserted, "I despise him (Van Ingen) and would like to dance on his coffin."

The defense also introduced evidence in an effort to show that the marriage of Van Ingen to Miss Rhorer was forced by relatives of the bride, and that Bouvy held a place in the affections of Miss Rhorer.

Bouvy took the stand in his own behalf, and in addition to statements brought out in the strikingly novel phase of the unwritten law, sought to be established by the defense, the statement of Bouvy offered a self-defense theory. He declared that he saw Van Ingen reaching into a grip by his side, and that he thought the bridegroom intended to shoot him.

DYNAMITE LETS GO

Stump Blower Gives Pique Citizens Earthquake Scare.

Piqua, O., April 8.—A shock which disturbed Piqua, and which was at first thought to have been an earthquake, proved to be an explosion of 25 pounds of dynamite on a farm four miles from here. Houses were shaken at Sidney, 12 miles away.

Fry Simon, 14, who was engaged in blowing up stumps, was fatally injured by the explosion.

Indict Coachman For Murder.

Staubenville, O., April 8.—The grand jury made a special report in the matter of the recent murder of Charles H. Steele, a wholesale druggist of Staubenville. John H. Kirkpatrick, a negro coachman and former employee, was indicted for his murder on three counts, and his trial will be held soon.

MAIL ORDER HOUSES TO BE WARRED UPON

Anti-Saloon League to Help Protect Dry Territory.

Columbus, O., April 8.—At the state headquarters of the Anti-Saloon league they are laying in ammunition for another statewide war on whisky, with the mail order liquor houses of Columbus, Cleveland, Toledo and Cincinnati in the role of the enemy.

It will be a fight to a finish in the courts to prevent these big concerns from flooding the dry counties with liquor.

Under a provision of the Dean-Orist saloon character law, which goes into effect April 15, the solicitation of orders in counties that have abolished the saloon is outlawed.

This provision is one of the two temperance "riders" taken on to the original Dean bill by Representative Harry Crist of Delaware, at the instance of the Anti-Saloon league.

Wholesale houses in the larger cities of the state have been sending these letters through the dry counties by the thousand since the elections under the Rose law. As a result they are reaping a rich harvest of mail orders.

"We expect them to fight, and fight hard, but we believe we will whip them in every court in the state," Mr. Wheeler announced.

You Cannot Answer These Questions!

1—Why do you continue bathing your knees and elbows one at a time, when you can stretch out in a full bath tempered to suit you, and can do so every morning if you wish?

2—Why pump and carry water for your kitchen and laundry work when you can have it at hand for the turning of a faucet?

3—Why take chances on drinking germ-filled cistern water when you can get it from a large reservoir filtered through the best filter plant South of the Ohio River?

4—Why have a dry, dismal-looking yard when you can have it filled with green grass and blooming flowers, and can at the same time get rid of the dust in the street?

5—Why suffer other inconveniences when you can have everything for the comfort and health of your family right in the house?

6—Is it not true that the answer is not "lack of money," but lack of economy and enterprise and indifference to getting the most out of life?

ADVICE FROM ABROAD

In commenting on the effect of the high prices of American tobacco on the foreign trade, the Belgium correspondent of the Cincinnati Tobacco Journal adds these sensible ideas as to the folly of producing a large quantity of inferior tobacco:

"I am not advocating starvation prices, such as we have seen sometimes, and I do hope that this may be forever a thing of the past. There is no advantage to anybody when tobacco sells below cost of production, and I feel sure that it lies in the power of the farmers to prevent it. Low prices have always been brought about by low quality; either by bringing to market tobaccos that are barely good enough for manure, such as poor primings, low, sandy, flea-bitten and perished lugs; or else by badly managed tobacco that gets fatted and damaged in the hogshead and has to be sold at almost any price. I have never known the time that good tobaccos would not sell for a decent price, and if your farmers will only have the good sense to bring nothing but good tobaccos to the market they may be sure that they will meet with ready buyers and respectable prices. Nothing will spoil a market like a lot of rubbish that has to be sold at any price; and the worst of it is that this rubbish will generally go into the hands of a certain class of low manufacturers, who in turn will spoil the price of the manufactured article."

"I'D RATHER DIE, DOCTOR

Instead—he used Bucklen's Arnica Salve till wholly cured. Its cures of Eczema, Fever Sores, Boils, Burns and Piles astound the world. 25c. at Phillips Drug Store.

Tom Reed's Insinuation.

Once when Thomas B. Reed was with the late Senator Wolcott of Colorado and Joseph Choate, Mr. Choate, when asked to take a drink, said that he never drank, never smoked to excess, and never gambled in his life. Wolcott, who was a sinner in every one of these lines, looked pathetically at Reed and said: "I wish I could say that." "Say it," said Reed; "Choate did."
